CHILDREN NEED FOOD—NOT ALCOHOL

How careless it is to accept alcoholic medicine for children when everybody knows that their whole health and growth depends upon correct *nourishment*. If your children are pale, listless, underweight or puny, they absolutely need the special, concentrated food that only

SCOTT'S EMULSION

gives, to improve their nutrition and repair waste caused by youthful activity. During school term all children should be given *Scott's Emulsion* because it benefits their blood, sharpens their appetite and rebuilds their strength by sheer force of its great nourishing power.

ITALIANS BREAK TEUTON PRESSURE ON LOWER PIAVE

Grenadier and Bersaglieri
Brigades Strew Battlefield
With Enemy Dead.

ITALIAN HEADQUARTERS IN
NORTHERN ITALY, Thursday, Jan.
17 (By the Associated Press).—Italian
troops have succeeded in breaking
the pressure which the enemy has
been exerting on the lower Piave, in
the sector nearest Venice. This is a

triangular sector originally cleared of
the enemy when the whole region was
inundated by opening the canals. But
recently low water has permitted the
enemy to renew his incursions almost
to Capo Sile and the Venetian lagoons.

Enemy patrols had established dugouts and posts in the lagoons at Agenzia Zullana, just across the river from Capo Sile, which commands the canal running to Porto Grande and the region back of Venice. During the early days of the week the Italian navy had bombarded the dugouts and destroyed the bridge on which the enemy was attempting to cross at Agenzia Trezza. The enemy made repeated attempts to enlarge his positions, but was uniformly repulsed.

Stung by the repeated check, the enemy brought his full force to bear yesterday morning. They were met by chosen Italian troops from the Grenadier and Bersaglieri brigades. The Italian defense was led by the Bersaglieri, who had asked that privilege in order to answer the scurrilous pamphlets which had been thrown into the Italian lines.

The Bersaglieri showed their way to the enemy's support line. The fight was stubborn for the first two hours, but the enemy gradually gave ground as fresh ranks of Bersaglieri, cheering and singing patriotic songs, threw themselves into the struggle. The enemy was finally pushed back from the positions he had gained.

One of the favorite ruses used by the enemy was for a party of his troops to advance with their hands up, calling "Kamerad!" When they would get close to the Italian lines they would rush forward suddenly with hand grenades, only to be mowed down as they advanced by the Italian machine gun fire. The fighting throughout was at close quarters.

The battle ground was covered with Austrian dead, and burial parties were busy throughout the night burying the bodies.

Many individual instances of bravery stand out. In one case an Italian officer and five men leaped into an Austrian trench, took two machine guns, killed all the Austrian gunners and brought back the guns.

The Italian success gives a serious check to the enemy effort to improve his position near Venice.

SCARCITY OF FOOD CAUSES TROUBLE ALL OVER BRITAIN

People Forced to Stand in
Lines at Distributing Points
in Bitter Weather.

LONDON, Jan. 18.—Increasing attention is being given by the newspapers to food troubles and popular impatience with what is regarded widely as avoidable privations. The Times to-day calls attention to the "persistence of the unequal distribution of food and its offspring, the 'queue' system," which, it says, is beginning to tell on the tempers of numbers of persons.

It refers to numerous protests and to the demands for rationing which are finding an outlet in some instances in outbreaks of disorderliness. It writes sympathetically of people standing in long lines in the bitter weather prevalent in parts of England, including London, and says it would be folly to ignore the obvious symptoms of unrest.

Numerous paragraphs appear in the newspapers recording demonstrations, unsatisfactory distribution, "queue" sufferings, shortages, prosecutions for hoarding and allegations of profiteering.

The labor correspondent of the Times says it is evident that a situation is imminent which will tax the Food Department to the utmost. He says there is no occasion for alarm, but a need of complete frankness and prompt action. The writer restates the view of the workers that not only are the wealthy people able to escape "queue" troubles by the power of their purses, but they are getting all the supplies they require, while the poor stand for hours exposed to the weather and then often get nothing.

The workers also are convinced that an artificial scarcity has been created by the farmers, dealers and speculators. The unrest, the writer continues, will be stayed only when the food controller convinces the average workman that curtailment is unavoidable.

An instance of speculation, which is in no wise confined to the food, was given at Newport yesterday when Capt. Williams, the National Service representative, there, declared he had no evidence that a speculative bought a large catch of fish from South Coast fishermen at a ridiculously low price and sold it at a profit of more than 1000 per cent. As a result, he said, the public was compelled to pay more than forty shillings for what had cost three shillings.

Socialist Propaganda Forbidden in the German Army.

WASHINGTON, Jan. 18.—Orders forbidding all Socialist propaganda in the German army have been issued by the German military authorities, according to a despatch today from Switzerland. Socialist newspapers are forbidden to be sent to the soldiers.
